CDC/Neighborhood \_\_\_\_\_

1) Do you have a standard 2"x3" rectangular downspout on your home or garage that is not visible from the street? Yes No

*If you have a 3" x4" or round/circular downspout you are currently **not eligible** to receive a barrel as our diverters only fit on 2" x3" downspouts.*

2) Does the downspout to which you wish to attach the rain barrel drain to the sewer (**NOT** over the driveway, sidewalk or regular garden/bed)? Yes No

3) Will you be able to install the downspout diverter prior to delivery of the rain barrel? Yes No

*Diverter is provided at no charge as part of the program and available at your CDC office before summer. Residents participating in the Summer Rain Barrel Program are responsible for installing the downspout diverter that connects the downspout to the rain barrel. **The City of Cleveland and Youth Opportunities Unlimited DO NOT install diverters.***

Resident Installing Diverter

4) Will it be a problem for someone to be present at the property during barrel delivery and connection to the downspout diverter?  
Yes    No

*For barrel delivery, you will receive a phone call at least two days prior informing you of what day your barrel will be delivered. If you are unable to be home when delivery occurs, then the barrel will be placed in your backyard but not connected to the downspout diverter.*

Resident Present with Student Workers

In an effort to track the effectiveness of the Summer Rain Barrel Program, students will be conducting surveys of barrel usage both in-person and over the phone during the summer months starting in 2016.

5) Will it be a problem for a student worker to come on your property to survey your barrel in future years to ensure you are using the barrel properly?    Yes\*    No

*For the survey work, you will receive a phone call at least two days prior informing you of what day students will come to survey your barrel. \*Answering yes may influence your eligibility to receive a barrel.*
