On March 23, 2020, the City Council passed Ord. No. 341-2020, authorizing the Director of Economic Development to defer payments on loans owed to the City of Cleveland. Loans funded from the City’s resources will have all payments deferred until October 1, 2020. The Department of Economic Development is currently engaged with grantor agencies to secure payment relief for loans funded through these resources. The Department has already begun implementation of this accommodation with many borrowers having been relieved of their payment obligation due April 1.

If you have a loan with the City and have not been contacted concerning this debt relief, please contact your loan officer.

The City’s efforts are designed to compliment the efforts of the Federal government. We encourage our business community to review and apply for funding assistance through the Small Business Administration. On April 1, 2020, Governor DeWine issued an Executive Order requesting that commercial real estate owners suspend the collection of rent and evictions of commercial small businesses for a period of 90 days. The Executive Order also requests that commercial mortgage lenders also suspend the collection of mortgage payments from commercial real estate owners for the same period.

Please note that this Executive Order is a request, not a command. Small businesses should contact their landlords about any accommodations that are being made in accordance with the Governor’s Executive Order.
